

UNICORN

THE BIG NAME IN DARTS

BOOK OF DARTS 2025
FOR EVERY PLAYER

Since 1937, Unicorn have led the charge in innovation and investment, helping build the game of darts to become the global phenomenon that it is today.

Throughout our history, we have innovated and created some of the most technologically advanced and iconic products the market has ever seen. You can't talk about darts without mentioning Unicorn. We were a founding member of the Professional Darts Corporation and we remain immersed in the professional and amateur game through partnerships with professional players, young players with professional aspirations, academies and leagues.

23 NEW PLAYERS SIGNED WITH UNICORN DARTS IN 2024

Our passion for the professional game extends beyond just the elite level, we are firmly entrenched in supporting darts at grassroots level. Through product innovation Unicorn continues to develop darts, dartboards and accessories for regular players keen to improve their game with more advanced options. Unicorn are supporting platforms for keen amateur players and ensuring the growth of online play-at-home leagues.

The last few years have seen an explosion of popularity in darts. Most notably, the concept of competitive socialising which has catapulted darts and Unicorn into every corner of the globe through our collaboration with Flight Club and our Commercial Smartboard® partnership with 501 Entertainment. The Augmented Reality Smartboard® is the world's first and only auto-scoring darts system that projects all targets and scores directly onto the board.

THE MOST SUCCESSFUL DARTS BRAND

OF ALL TIME!

UNICORN. WORLD CHAMPIONS. 21 TIMES.
UNICORN PLAYERS WITH UNICORN DARTS

FOR EVERY PLAYER

1 BILLION UNICORN DARTS THROWN ON UNICORN DARTBOARDS THROUGHOUT THE WORLD

Over 640 million darts have been thrown on Unicorn Dartboards using Unicorn Darts, Unicorn Flights and Unicorn Shafts at Flight Club since its inception. This number will continue to soar with the opening of new venues every year, all fitted with Unicorn equipment.

Unicorn's Commercial Smartboard® has been used by over 3.7 million guests across 35 countries around the world and registered over 340 million darts. This is statistical data showing players of all abilities enjoying the game of darts, just not necessarily the traditional version of 501 we see on TV!

The explosion in casual darts, enjoyed by people who may have otherwise never thrown a dart in their lives, opens up an incredible opportunity for everyone involved with the game. Through all of these channels, Unicorn continues to be The Big Name In Darts.

Unicorn sponsored Phil Taylor for nearly 18 years from 1st April 1996 to 31st January 2014. Over that time, Phil used Unicorn designed and manufactured darts to win 12 World Championships, over 70 major televised tournaments and over £4 million in win prize money alone.

SILVER COMET PRECISION DARTS
BRITISH PATENT No. 484,292. U.S. PATENT No. 2,182,296.

Introduced in 1937, these splendid darts have been unsurpassed in construction, design and popularity ever since. Over a quarter of a million sets have been sold to date and many of the original batch are still giving perfect service, as testified by many appreciative letters received from actual users. The plated brass body is fitted with a streamlined cap screwed on the rear end of the shaft. The flight is thus perfectly encased in metal and no loss of score is possible, because if a following dart hits the streamlined cap it glances off to lodge in the board.

Created by Unicorn, based on a John Lowe barrel, Phil Taylor used Phase 5 darts to devastating effect from 2008 to 2014, winning World Championships in 2009, 2010 & 2013 together with a host of other Major TV tournaments. Probably the most successful dart ever made!

The Zippy is one of the most iconic darts in the Unicorn range. It's fun, it's small and it zips through the air. A firm favourite amongst fans of Unicorn darts, the Zippy brings a smile to everyone's face.

THE NEW ERA IN FLIGHT SHAPE TECHNOLOGY...

ASPECT RATIO (AR) is the latest darting innovation from the UniBoffin following extensive research into dart flight aerodynamics.

The wide front profile increases stability when the dart is in flight while the tapered rear area reduces drag to increase speed..

To round off the innovative design of the AR flight a new nose profile has been engineered for quicker and easier flight loading - a welcome feature for all dart players.

Available in two sizes, AR1 and AR2.

- AR1 = EXTRA STABILITY THROUGH THE AIR
- AR2 = MORE SPEED THROUGH THE AIR

VOLUTE

PATENTED TECHNOLOGY
Patent No. GB2584893
THE BIG NAME IN DARTS

UNICORN VOLUTE POINTS HAVE PROVED TO REDUCE BOTH DARTBOARD WEAR AND RISK OF BOUNCE-OUTS.

Cross-section of the three grooves in each Volute point which increase the surface area to improve grip in the dartboard compared with standard points.

— THE BIG NAME IN DARTS —

TO OUR CUSTOMERS.....

Our aim is to make trading with Unicorn easy.

We try very hard to have an appreciation of our customers' problems and to have a minimum of rules.

We feel the stating of our policies will make it easier and more profitable for our customers to deal with Unicorn.

WARNING

DARTS IS AN ADULT SPORT. IT IS DANGEROUS FOR CHILDREN TO PLAY WITHOUT SUPERVISION. WE RECOMMEND THAT A DEALER SHOULD EXERCISE DISCRETION WHERE ANY SALE MIGHT RESULT IN CHILDREN PLAYING WITHOUT ADULT SUPERVISION.

SPECIFICATIONS

We have taken every care to ensure that the information detailed in this catalogue is truthful and accurate. All weights and sizes are approximate and for guidance and comparison only. Should circumstances arising subsequent to publication render as unavoidable some changes in production, Unicorn Products Limited reserves absolute discretion to make these or any other changes they deem necessary without notice or obligation.

PRODUCT IMPROVEMENT

Continuous research and development will bring about changes in design, material and arrangement of our products during the life of this catalogue. We shall pass to our customers such benefits or improvements as they occur by delivering the latest version of any product. Such improvements or modifications as may be introduced do not place us under any obligation to make similar changes in articles sold before the date of introduction.

STANDARD PACKS

Many of the items in this catalogue are prepacked in convenient size standard packs. The standard pack has been selected for ease of stocking and ordering, economy in production and to ensure safe transit of the contents.

For these reasons we cannot split standard packs and where orders call for other than standard packs we shall adjust the order to the nearest pack quantity.

GUARANTEE

It is our aim to ensure the complete satisfaction of our customers and in case of a genuine complaint as to the quality of our goods, we shall be anxious to rectify any fault of our own free will and at our discretion only.

IMITATIONS

The design, construction and trade names of most of our products are protected by patents, design registrations, trade marks, copyrights and/or pending applications and rigorous action will be taken against all infringers to protect both dealer and users from imitation.

ACCEPTANCE OF ORDER

All orders are accepted by us on the understanding that our Conditions of Sale as stated in our current price list form the basis of the Contract of Sale entered into by the placing and acceptance of such orders.
