

# THE BOOK OF DARTS 2008

## TO OUR CUSTOMERS...

Our aim is to make trading with Unicorn easy

We try very hard to have an appreciation of our customers' problems and to have a minimum of rules

We feel the stating of our policies will make it easier and more profitable for our customers to deal with Unicorn

### 1. WARNING

DARTS IS AN ADULT SPORT. IT IS DANGEROUS FOR CHILDREN TO PLAY WITHOUT SUPERVISION. WE RECOMMEND THAT A DEALER SHOULD EXERCISE DISCRETION WHERE ANY SALE MIGHT RESULT IN CHILDREN PLAYING WITHOUT ADULT SUPERVISION

### 2. DISTRIBUTION

We are geared to supply goods to accredited retailers only and thus cannot give satisfaction to clubs or individuals, whom we refer to local dealers, anxious and ready to provide a prompt and complete service

### 3. SPECIFICATIONS

We have taken every care to ensure that the information detailed in this catalogue is truthful and accurate. All weights and sizes are approximate and for guidance and comparison only. Should circumstances arising subsequent to publication render as unavoidable some changes in production, Unicorn Products Limited reserves absolute discretion to make these or any other changes they deem necessary without notice or obligation

### 4. PRODUCT IMPROVEMENT

Continuous research and development will bring about changes in design, material and arrangement of our products during the life of this catalogue. We shall pass to our customers such benefits or improvements as they occur by delivering the latest version of any product. Such improvements or modifications as may be introduced do not place us under any obligation to make similar changes in articles sold before the date of introduction

### 5. STANDARD PACKS

Many of the items in this catalogue are prepacked in convenient size

standard packs. The standard pack has been selected for ease of stocking and ordering, economy in production and to ensure safe transit of the contents. For these reasons we cannot split standard packs and where orders call for other than standard packs we shall adjust the order to the nearest pack quantity

### 6. GUARANTEE

It is our aim to ensure the complete satisfaction of our customers and in case of a genuine complaint as to the quality of our goods, we shall be anxious to rectify any fault of our own free will and at our discretion only

### 7. IMITATIONS

The design, construction and trade names of most of our products are protected by patents, design registrations, trade marks, copyrights and/or pending applications and rigorous action will be taken against all infringers to protect both dealer and users from imitation

### 8. ACCEPTANCE OF ORDER

All orders are accepted by us on the understanding that our Conditions of Sale as stated in our current price list form the basis of the Contract of Sale entered into by the placing and acceptance of such orders

## THE MEN IN BLACK. NOW AVAILABLE IN WHITE.

Latinum® Tungsten from Unicorn. For the smoothest release yet.

### Why Latinum?

It's all about choice. Feedback from Team Unicorn and aspiring players all over the World confirms that barrel selection is very personal. The dart you throw is the dart that feels right to you.

Unicorn 2008 offers the widest possible selection of barrel shapes, weights, lengths, grips and now, feel.

Natural Tungsten gives superb grip, Golden gives the ultimate grip without slip. Now Unicorn introduce a third option, Latinum® Tungsten for an incredibly smooth comfort feel and release. If you find a particular grip too aggressive, try it in Latinum to get your perfect balance of grip and feel.

"Why are darts sold by weight, not length?" asked one of our correspondents. And we thought, what a very good point!

Say "Hello" to Stretch, the dart range catering for players more interested in barrel length than weight. All stretch barrels offer the slimmest diameter, the specified weight is achieved by extending the barrel and using materials of different densities.

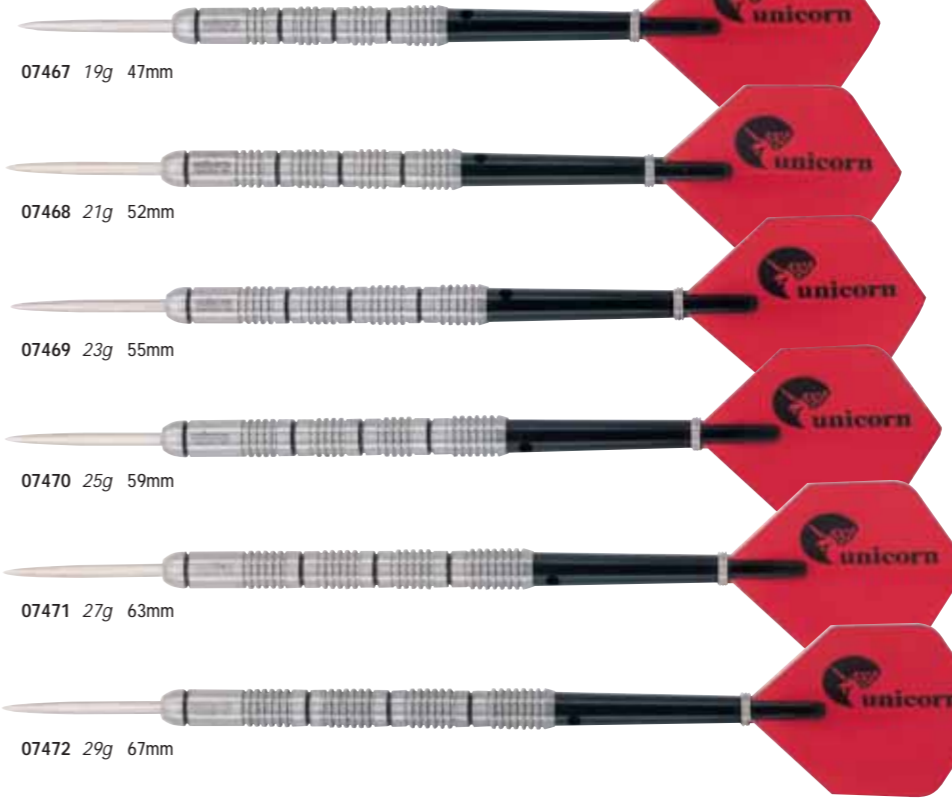

Unicorn's longest barrel was around 54 mm. Now, Unicorn 2008 offers increased lengths up to 67 mm (Steel Tip) or 74 mm (Soft Tip)

There's more to Stretch than meets the eye - whilst the grip is the same pattern, it becomes more aggressive towards the back of the barrel where our research reveals that more and more players are holding their darts.

All Steel Tip Stretch barrels feature a rotating point allowing thrown darts to move out of the way of incoming darts.

COMPARE THE DIFFERENCE

**PHIL TAYLOR PURIST®**  
 The precise specification of barrels used by Phil Taylor. Supplied as barrels only in a metallic Micro case, Phil Taylor's original Purist features additional grooves to the back of the barrels for extra grip. From time to time Team Unicorn players experiment with different barrels and set-ups. We actively support their initiative as part of our Research and Development programme and are pleased to make available the very darts that Team Unicorn players have in their tool-kits. All Phil Taylor Purist darts are nominal 24g, with a Guarantee Certificate of their precise weight.

Guaranteed Weight darts include a certificate guaranteeing the factory weight of each pointed dart barrel +/- 0.1 gram

## PHIL TAYLOR PURIST®

The precise specification of barrels used by Phil Taylor. Supplied as barrels only in a metallic Micro case, Phil Taylor's original Purist features additional grooves to the back of the barrels for extra grip.

From time to time Team Unicorn players experiment with different barrels and set-ups. We actively support their initiative as part of our Research and Development programme and are pleased to make available the very darts that Team Unicorn players have in their tool-kits.

All Phil Taylor Purist darts are nominal 18g. All up weight will depend upon player configuration of flight and shaft.

Guaranteed Weight darts include a certificate guaranteeing the factory weight of each pointed dart barrel +/- 0.1 gram

## NEW WELCOME TO THE UNILAB!

Research and development is a fundamental part of Unicorn's DNA. Now, for the first time, we're opening up our research facilities to you.

Welcome to The UniLab, the perfect working partnership between Unicorn's nearly 70 years of dart engineering experience and the complex mathematics that govern the actual flight of a dart.

We've teamed up with one of the world's leading individual authorities on flight dynamics to help you optimize your dart set up and improve your averages.

Imagine you were in the market for an aircraft. Would you buy the wings from a jet fighter, the fuselage from a 747 and the engine from a helicopter and expect the whole thing to fly properly? No, of course not - you would buy a complete item confident that the manufacturer had teams of aerodynamicists and engineers who have ensured that every component is optimised to work as part of a unit.

And that's how it should be with darts but, at the point of sale, we can only offer one combination of barrel, flight and shaft. Whilst these components are all tested by our engineers and Team Unicorn, the retail combination may not be perfectly suited to your style.

Until now, the task of individually optimising a dart has been down to your trial and error.

The UniLab now puts you in control.

Go to [www.unicorn-darts.com](http://www.unicorn-darts.com) and click on UniLab. A unique innovation in darts, UniLab uses advanced mathematics to ensure that the Unicorn barrel, shaft and flight are precisely matched to operate as an optimum aerodynamic unit for your particular throwing style, standard and stance.

The UniLab helps eliminate many of the aerodynamic effects that cause inaccuracy.

The maths may be complicated (if you're technically inclined, our experts explain some of the detail in the UniBlog on our website) but the program is simple to use and if you take the advice from The UniLab you will step up to the oche confident that the Power of Science is helping Power your Elbow!

# UNICORN - THE DARTBOARD COMPANY

AS YOU WOULD EXPECT FROM UNICORN - THE DARTBOARD COMPANY, WE MAKE AVAILABLE A FULL RANGE OF BRISTLE, ELECTRONIC AND COILED PAPER DARTBOARDS, MAKING THE UNICORN DARTBOARD RANGE THE INDUSTRY STANDARD FOR PERFORMANCE, INNOVATION AND VALUE.

PDC confirms it's selection of Unicorn bristle boards until 2011!

### ECLIPSE® PRO DARTBOARD

- Championship quality bristle board
- PDC endorsed
- World Champions endorsements
- Designed to maximise averages
- Unicorn high technology wiring design
- Completely staple-free construction
- Ultra-slim segmentation system – 30% thinner than conventional round wire boards
- Increased target area – especially in Doubles and Trebles
- Ultra high visibility number ring and spider
- Staple-free Bullseye
- Free 'Checkout Chart'
- Free measuring tape

79403  
5 boards per master carton

### ECLIPSE® PRO

There are many dartboards available for the discerning player to choose. There is only one dartboard, the Eclipse Pro from Unicorn, that is chosen year after year by the PDC to be used exclusively in all televised tournaments around the World. The unprecedented professional tournament play that Unicorn Eclipse boards endure provides invaluable feedback to Unicorn's engineers to monitor and continually improve Eclipse construction and performance.

TV cameras are unforgiving and the superlative live performance of Eclipse boards is visible and known to millions of viewers around the World.

The Smart Segments used in all Eclipse family boards use Minimum Metal for Maximum Target, actively improving scoring averages and checkout ratios and minimising bounceouts.

At the 2002 PDC World Matchplay Championship, Phil Taylor - using Unicorn darts on a Unicorn Eclipse dartboard - scored the first live televised 9-dart finish and recorded the highest ever TV match average of 112.17.

At the highest level of the professional sport of darts, Unicorn Eclipse boards give you that vital edge to maximise scores in an ultra-low bounceout environment. Players and surveys around the World consistently rate the Unicorn Eclipse Pro as the finest board available from any manufacturer, bar none.

### ECLIPSE® PRO TRAINER

The Unicorn Eclipse Pro Trainer board. As used by Team Unicorn Members, the Eclipse Pro Trainer features ultra-slim doubles and trebles some 40% narrower than the Eclipse Pro match board. Ultra slim targets step up a player's game in practise, requiring astonishing accuracy, consistency and control. Eclipse Pro Trainer also features a new Micro Bull for training torture.

- ### ECLIPSE® PRO TRAINER
- Dedicated practise board with specially designed Spider
  - Uses exactly the same materials and construction as the standard Eclipse Pro board

PHIL TAYLOR SAYS...  
I practise now on Eclipse Pro Trainer. If you're serious about your game, this is a must have.

## eBristle®

Purists recognize that the most satisfying game of darts is played on a traditional bristle dartboard. With boards of Eclipse construction, bounce outs are minimized and players can work on maximising averages.

Electronic, self-scoring, dartboards have been available for many years using darts with a plastic point that lodge in holes in the playing surface. However, bounce outs tend to be a regular, accepted part of the game.

Unicorn introduce eBristle dartboards, the latest generation of electronic bristle boards

featuring the advantage of a bristle rich playing surface with the fun and convenience of auto scoring. Now, you no longer need alternate sets of steel and soft tip darts, with a Unicorn eBristle board, enjoy the look and feel of a bristle board and the consistency of using your regular darts of choice.
